GROUND SCHOOL · UI/UX DESIGN

5 small UX fixes that make your website easier to buy from.

Customers rarely leave because they dislike you. They leave because something felt like hard work.

01 buttons

One main button.

Make it look like one.

BEFORE

AFTER

Book a free call

or see our work

Four equal links compete. One clear button wins.

02 forms

Ask for less.
Get more sign-ups.

BEFORE

- Title
- First name
- Middle name
- Surname
- Company
- Job title
- Address
- Phone
- Email
- How did you hear...

AFTER

- Your name
- WhatsApp number
- What do you need?

Send

Every extra field is one more reason to give up.

03 readability

Text people can actually read.

BEFORE

We are a leading provider of innovative solutions across multiple verticals delivering value to stakeholders through synergy and best-in-class excellence in all we do every day.

AFTER

Websites that win you customers.

Fast, clear and built for phones. Live in weeks.

Bigger text, stronger contrast, shorter lines.

04 tap targets

Buttons made for thumbs.

AFTER

Services

Our work

WhatsApp us

Big enough to hit first time, with space between them.

05 progress

Show people where they are.

BEFORE

Submitting…

(no message, no progress, no idea if it worked)

AFTER

STEP 2 OF 3

✔ Received! We reply within 24 hours.

Steps, loading states and clear confirmations calm people down.

THE RULE

Good design feels invisible. Bad design feels like work.
