AI FOR TRADERS

5 WhatsApp messages AI can write for you today.

For shops, market traders and online sellers.
Copy the prompts. Free AI apps are enough.

01 Price list

Your price list, sorted in seconds.

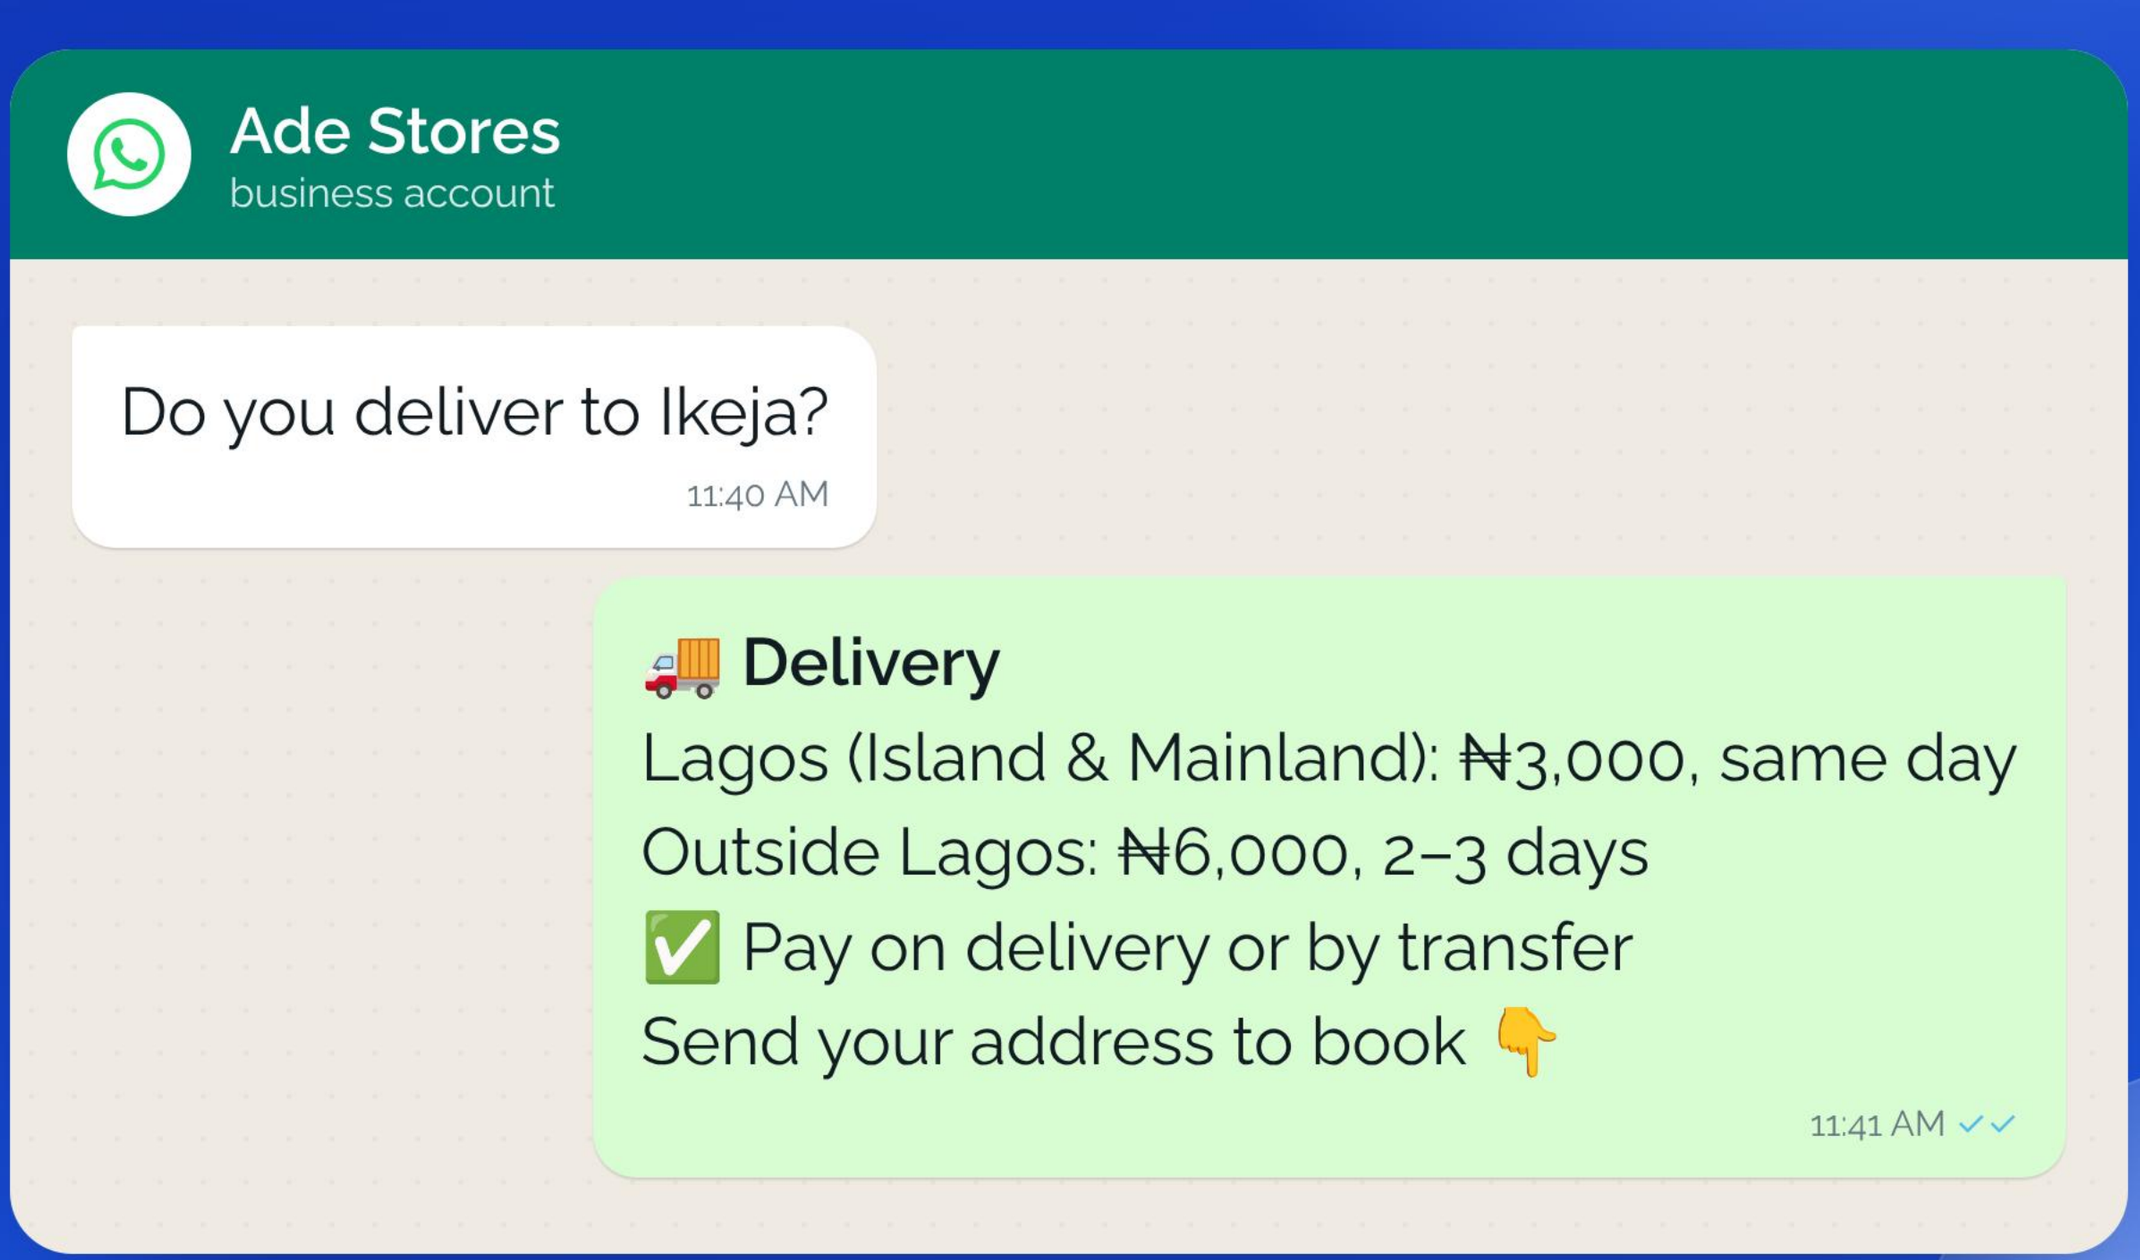

COPY THIS PROMPT

Turn my price list into a neat WhatsApp message for customers. Group the items, show prices in naira, and end with how to order. *(Paste the list or snap a photo of it.)*

02 Delivery

Explain delivery once. Reuse forever.

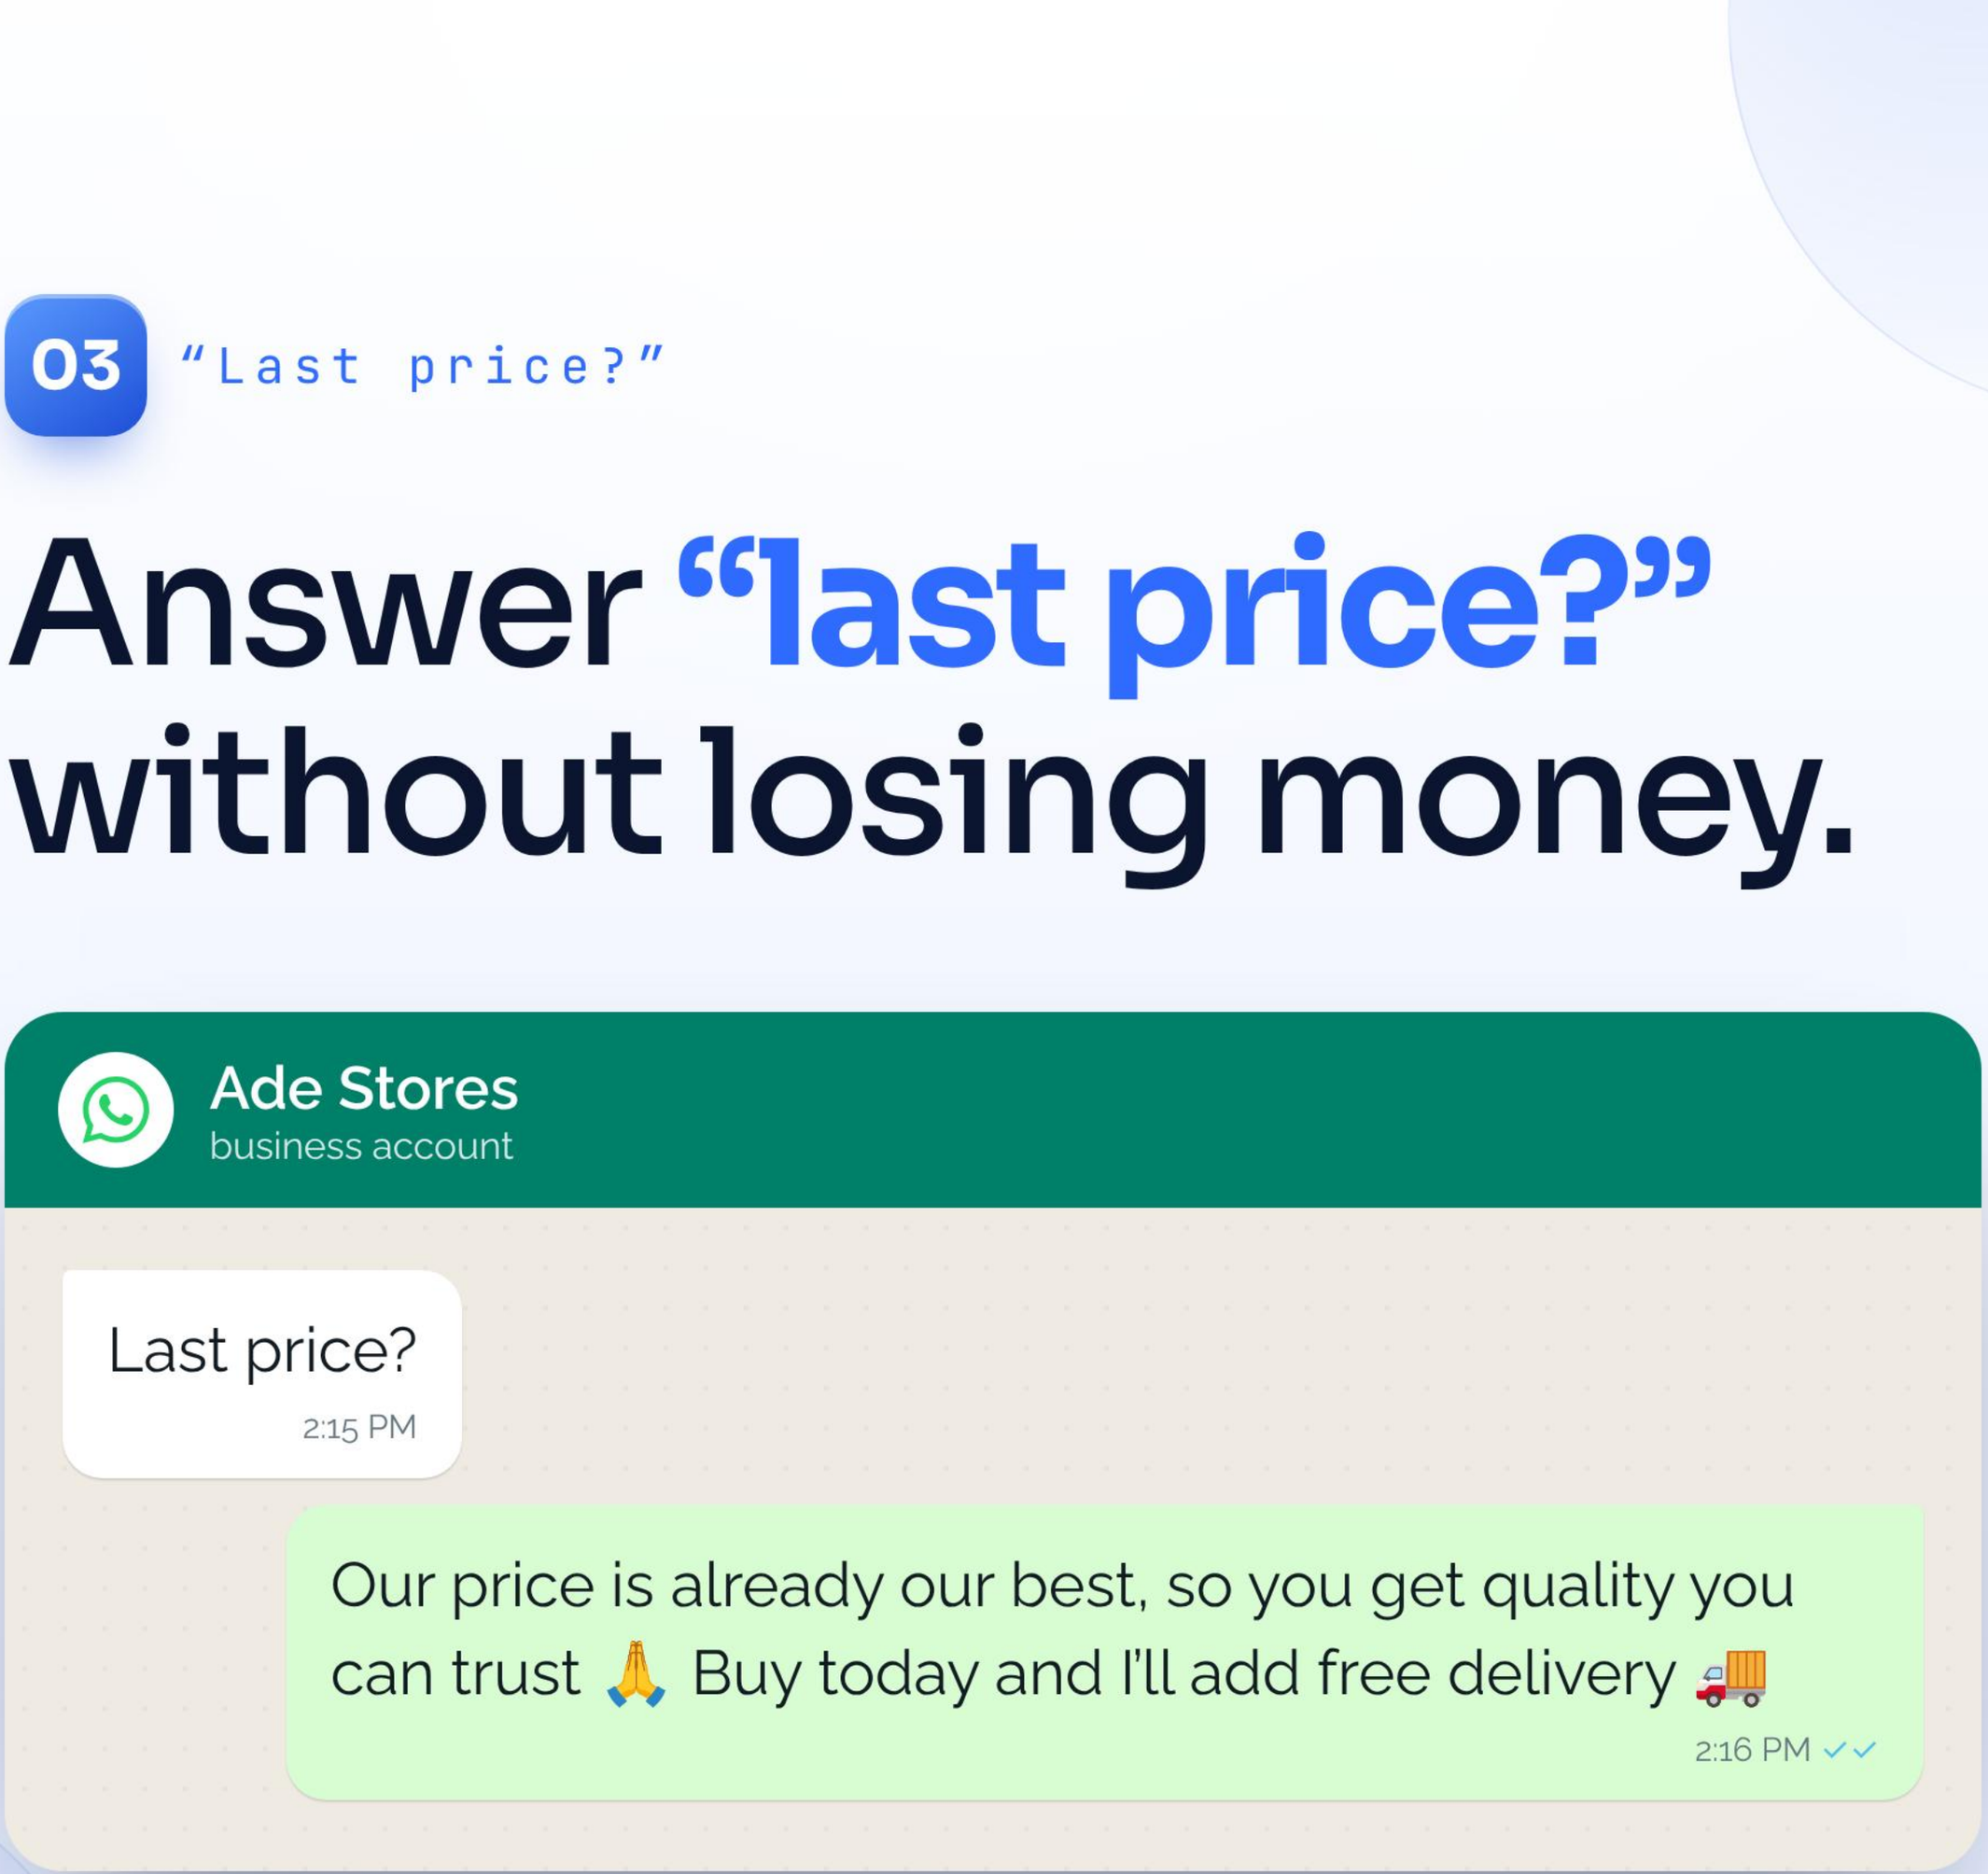

COPY THIS PROMPT

Write a short WhatsApp message about my delivery: areas, fees, timing and payment options. Friendly and clear.

03 “Last price?”

Answer “last price?” without losing money.

COPY THIS PROMPT

A customer asked “last price?”. Write a polite reply that keeps my price but offers free delivery if they buy today.

04 Thank you

Say thank you, and get a review.

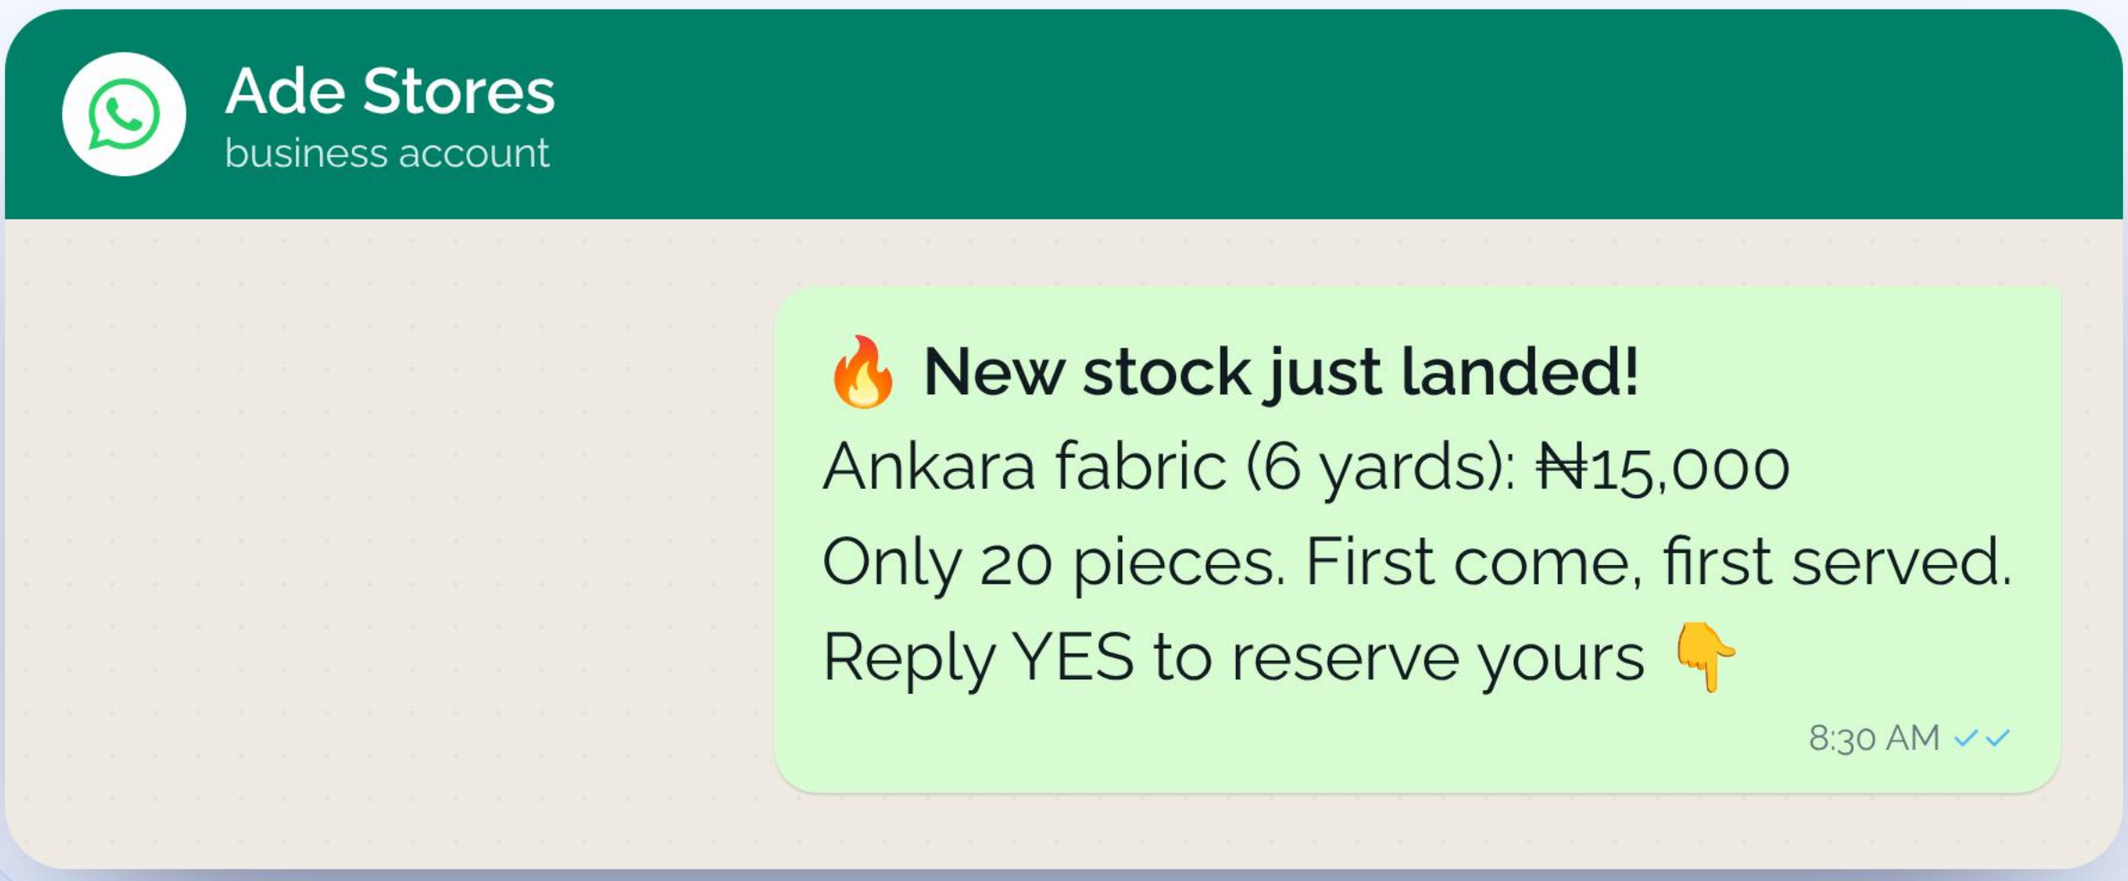

COPY THIS PROMPT

Write a warm thank-you message for a customer who just bought [item], asking for a quick photo or a one-line review.

05 New stock

New stock? Make them **want it.**

COPY THIS PROMPT

Write a WhatsApp broadcast for new stock: [items + prices]. Create urgency without sounding desperate. 5 lines max.

YOUR TURN

Let AI do the **typing.** You do the selling.

Works with the free versions of ChatGPT, Gemini or Claude.
Always check prices and names before you send.

Save this for later

Send it to a trader you know
